KS-6715 Series

Posiflex releases the fan-free KS-6715 series as a valued POS terminal.

More than an entry-level product, the KS-6715 series adopts more power efficient CPU in the patent aluminum die casting structure achieves the optimal balance between thermal and mechanical-electronic integration. It has the same classic case design as other more advanced KS series, and with the same options such as resistive or IR touch screen, and WiFi function. It also supports versatile peripheral options such as MSR, customer pole display, programmable keypad and a wide range of applications through its diverse connectivity interfaces.

The KS-6715 series is regarded as an excellent investment by its cost vs. performance ratio.
